Missing Adj. Yearling Weights

Any calves that are weighed for yearling weight before they are 320 days old won't be adjusted at the American Simmental Association when we submit the data. Since we weigh them before the catalog is printed, many of the April born calves are out of the window. We can formulate them by hand, but we forgot to do that this year before the catalog went to print. Here are the missing Adj. YW's:

Lot 34 – Adj. YW: 1254 lbs

Lot 75 – Adj. YW: 1400 lbs

Lot 77 – Adj. YW: 1249 lbs

Lot 86 – Adj. YW: 1191 lbs

Lot 88 – Adj. YW: 1144 lbs

Lot 89 – Adj. YW: 1267 lbs

Lot 103 – Adj. YW: 1310 lbs

Lot 140 – incorrect footnote

The neck abscess is on Lot 141.

Lot 141 – add to footnote:

Had an abscess on neck that was drained this Fall. Has a scar, but completely healed and 100% guaranteed.

OUTS:

Lots 15, 17, 118, 129 & 141
