What a great time to be in the cattle business! It's fun to see the commercial cattle producers being rewarded with strong cattle prices! Hopefully this trend lasts a while longer!

In 2024, we had more bulls born than heifers, so this year we are offering more than 120 bulls again! There are 44 black Purebred bulls, 43 black SimAngus bulls, 28 red Simmental/SimAngus bulls and 8 Purebred Red Angus in the sale this year. We are proud to offer so many Purebred Simmental bulls to our customers and not all SimAngus! We really love the SimAngus cross, especially the females, but we also know that many of our customers need a Purebred to cross on their own cows. We will always strive to offer both to our customers. The increased fertility, productivity and longevity gained from the SimAngus female is unmatched. We urge all our customers to utilize heterosis in some manner.

As we said last year, we are focused on balance in our herd. You won't find the extreme top 1% API and TI bulls in our offering, but you will find balanced EPDs with correct structure, good feet, good dispositions and they will come from females with great udders and maternal ability. In past years,

we have also retained ownership of our steers and obtained carcass data that has been submitted to American Simmental to be utilized in the data. We have proved that we can make 90% choice or higher with our genetics. Going forward, this will be more important than ever with the premiums and discounts getting higher.

In the future, we would like to offer our customers the opportunity to market their commercial yearling heifers in our sale! Please contact us if you are interested. We would sell them by video, and they would not be brought to our place for sale day. Plan ahead and let us know if this is something that interests you for next year!

Please join us on sale day, February 8, at our ranch at Leeds, ND! If you can't make it on sale day, please consider stopping out prior to the sale and getting your name in the drawing for a \$500 sale credit! Contact us to go over any of the bulls over the phone ahead of time too. We would love to help you find what you need!

Sincerely,
Kenner Simmental Ranch

Erika Kenner, Tyler and Eleanor Lannoye

ANNOUNCEMENTS

Announcements made sale day, and from the auction block during the sale, take precedence over printed material associated with this sale. Anyone attending this sale attends at their own risk. Breeders or any of the sale staff will not be held responsible for any personal injury while attending this sale.

AIRPORT

Devils Lake Regional Airport (DVL) is served by United to Denver and has excellent facilities for light aircraft.

Leeds (D31), Maddock (6D3) and Rugby (KRUG) have airports for light aircraft. Check runway conditions before landing.

EPDS

BOLT EPDs pulled 1/6/2025. All the bulls have been HD-tested (and parent verified) and have the genomics incorporated in the EPDs in this catalog.

HERD HEALTH & DATA TEAM

Herd Veterinarian, Sheridan Animal Hospital, Harvey, ND

Pregnancy Ultrasound, Dr. JJ Hovde, High Plains Vet Service, Sydney, MT

PERFORMANCE DATA

All the performance data is included in this sale catalog. The gains are calculated on a 105-day test period from weaning until 12/27/24. The scrotal measurements were also taken on 12/27/24 and adjusted to a year of age.

VIDEOS

Videos of the bulls and heifers will be available on our website and DVAuction in the middle of January. Log on to www.kennersimmental.com.

SALE FORMAT

The cattle will sell by video on sale day. All the bulls and heifers will be penned next to the sale barn by 9 am on sale day and will stay in those pens throughout the sale.

TRUCKING

We will try to deliver the bulls to the buyer's farm, or we will assist buyers in coordinating loads and make the most economical trucking arrangements possible. All the bred heifers must be picked up on sale day or have trucking arrangements made soon after since they will be close to calving. For assistance with trucking arrangements, contact Erika.

INSURANCE

We can keep the bulls at home for no charge until April 1, but we recommend purchasing insurance.

For more information contact: Erika Kenner, 406-581-1188

TERMS & CONDITIONS

- We guarantee all bulls to be breeders and we reserve the right to test any bull in question as a non-breeder for a reasonable amount of time before making an adjustment. And, if the bull is declared a sound breeder by a competent veterinarian, he will be returned to the buyer. In case an adjustment is required, it will be made with a replacement of equal value to animal in question, credit on purchase of another animal, or return of purchase price.
- Each animal becomes property and therefore is also the risk of the purchaser after it is sold. We guarantee the cattle to be healthy sale day.
- For those who cannot attend the sale, we will honor a telephone order and guarantee your phone purchase to meet your request when inspected personally by you.
- Certificates of registry will be supplied by the seller.
- All cattle sell under terms and conditions of the American Simmental Association and will be available in the office on sale day by request.
- We reserve the right to collect 100 units of semen on any bull in the sale for in-herd use only. The collection would be at our expense and buyer's convenience. Each bull will sell to the buyer with 100% ownership opportunity.

Can't make it? Watch and bid online through DVAuction. Log on to www.dvauction.com and register for the sale. *You must be approved prior to the sale, so please register early.*

Catalog designed by

About the Cover: Our neighbor, Audrey Herman, walks around this pasture every morning in the summer behind her house and one morning was able to take this of our very curious sale heifers. Thank you Audrey for being a great neighbor!

KENNER SIMMENTAL RANCH

Understanding the Data

WHY USE EPDS?

We have included all the data we can for each animal in this catalog, but we strongly recommend using the EPDs the most. EPDs allow a buyer to compare the animals across the breed. If you look at the actual data of an animal, it only tells you how they compare in that particular herd. By using the EPDs, you can compare them across herds and within herds more accurately.

We've formatted our lot boxes to include the percentile ranking for each trait if they rank within the top 50% of the breed. This will make it easier to evaluate each animal.

CALVING EASE EPD

Please understand the CE EPD is actually **heifer** calving ease. This number tells you how those bulls will calve on heifers - % unassisted compared to the other bulls on heifers. For example: If Bull A has a CE EPD of 10 and Bull B has a CE EPD of 5, Bull A will have 5% more unassisted births than Bull B when used on heifers. If you are going to use the bull for cows, you do not need to have that number as high.

GENOMIC EPDS

There are several genomic tests available. The GGP 100K test qualifies the animals for AI sires and donor cows and tests for parentage. The results are incorporated in to the EPDs through the single-step system (BOLT) and increases the accuracy for each trait.

All the bulls and heifers in the offering have been GGP 100K tested and the resulting EPDs are in the catalog. If any bulls will be used in an AI program, they are already qualified as an AI sire.

DILUTION GENE (DL)

All the red animals in this sale are non-diluted (DLF). DLF means they are free of the dilution gene. Grey calves will not result from any of these animals when bred to black animals.

OH GENETIC TRAIT

OH or Oculocutaneous Hypopigmentation is a cosmetic genetic trait affecting Simmental cattle. It is a recessive trait so it is only possible from the mating of two carriers. It is non-lethal and doesn't affect performance of the animal, but the animals will have "white-colored" eyes and/or a diluted hair coat. The most popular recent ancestor that is the carrier is PVF-BF BF26 Black Joker. We have tested everything in our herd that could possibly be a carrier and have identified the ones in this sale as either **OHF (Free) or OHC (Carrier)**.

OHC means that animal carries the gene. If mated with other carriers, there is a possibility to see the trait. If not mated to carriers, you will not see the trait, but may pass the carrier gene to some of the progeny.

STAYABILITY EPD

The Stayability EPD is a very important EPD because we all need the cows to stay in the herd as long as possible to be profitable. But one needs to understand how it is calculated. Stayability EPD measures the length of time a cow stays in the herd from after her first calf until she is 6 years old. If she is culled before 6 years old, it will affect her Stayability EPD, as well as her sire and dam's. But if an animal is culled prior to having her first calf, the Stayability EPD is not affected. For example, if a whole sire group is culled due to disposition or structure, prior to breeding, it does not influence the Stayability EPD for that sire. The females aren't considered part of the herd until they have their first calf.

The Stayability EPD is the largest portion of the API Index as female retention is very important to profitability.

HERD HEALTH

BULL VACCINATIONS

Calfhood: Nasalgen 3-PMH & Bovilis Coronavirus

Pre-turnout: Alpha 7 and Pyramid 5 + Prespense

Pre-weaning: Pyramid 5+ Prespense, Mycoplasma and Bovilis Coronavirus

Weaning: Ultrabac 7 and Synanthic Drench

30-day Post-Weaning: Pyramid 5 + Prespense

November: Poured with generic Ivermectin

January: Poured with Protectus

BRED HEIFER VACCINATIONS

Pre-breeding: Express FP5-VL5 and boosted with Express FP5-VL5

November: Scour Bos 9 and Type A Clostridia

December: Poured with Generic Ivermectin

January: Scour Bos 9, Type A Clostridia, Poured with Protectus

The bulls were fed a TMR ration formulated by Tim Clark of Hubbard Feeds. Our ration is formulated on a moderate level of energy that's appropriate for the genetic type and the northern environment in order to develop bulls for breeding. We worked the bulls up to a 48 Mcal ration and kept them at that level during the test period. Our trace mineral program is designed to improve structural integrity, foot quality and immune function. They are on a high-end supplement program. Our average ADG for the 2025 sale bulls was a 3.5 lbs. on a 98-day test.

BVD AND JOHNE'S STATUS

All animals in the herd tested negative for BVD. We follow the state's guidelines for Johne's Testing and have maintained our Johne's Status.

Can't make the sale? Watch & bid online for FREE at www.dvauction.com !

DVAuction
Broadcasting Real-Time Auctions

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles?
During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

KENNER SIMMENTAL RANCH

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

KS CREED K258

3/4 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Creed was one of the high-selling bulls in our 2023 sale that sold to Quandt Brothers of Oakes, ND. We used him in our AI and ET programs, and we really love his calves! Creed was one of a set of flush brothers by our donor, SRF Miss 940G, who has really made her mark on our herd. Creed's full sisters are exceptional cows in our herd and some even have bulls in this sale and the dam is one of the most beautiful uddered, structurally sound cows we have. Creed's full brother, KS Declaration, also has a son in this sale – Lot 8. Declaration sold to Wicks Cattle Company and Beach Cattle Co. in 2023. The Creed sons sell as Lots 1 – 7.

Contact Quandt Brothers for semen interest in KS Creed.

KS JODY J671

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

This is the first calf crop by one of our new donors, Jody. She was always a standout in the heifer pen and after seeing her first calf, we moved her into the donor pen. Her mother consistently produces great ones! Jody is a very docile Guardian daughter, has a good udder, good feet, and is an easy fleshing female. The flush by Creed really clicked! There are 5 full flush brothers by her in the sale selling as Lots 1-5 and Jody's maternal sister sells as Lot 125.

TNT DIVERSIFY H301

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We used Diversify last year and sold 14 sons for an average of \$7,900. We loved the Diversify calves last year and we love them again this year! They add frame and performance in a moderate birth weight. Dispositions are excellent! Should be an outcross pedigree for many. We have six sons in the sale this year – Lots 9 - 14.

LCDR DILIGENCE 215J

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

This is our first calf crop by Diligence. He was an outcross pedigree to most of our herd. We have been very impressed with the thickness and muscle shape of his calves. He adds performance in a moderate frame, while maintaining moderate birth weights. Dispositions have been very good! There are 8 sons selling in our sale – Lots 15 - 22.

TNT RESOLUTION L436

ASA# 4241868 / 3/4 SIMANGUS

TNT ASSURANCE J455 X TNT MISS A99 (TNT PUNCH) - DAM OF TNT DIVERSIFY

EPDS CE 11 BW 1.3 WW 92 YW 147 MCE 8 MILK 31 MWW 77 API 143 TI 86

We are so excited about our 2024 purchase of TNT Resolution! He is so impressive phenotypically and he's got the frame and power to really add performance. His feet look amazing and is extremely quiet and easy to handle. The dam has been a standout producer for TNT including her son, TNT Diversify, who has sons in this sale – Lots 9 – 14.

Semen available through Kenners or TNT Simmentals. \$40/straw

KENNER SIMMENTAL RANCH

BLACK PUREBRED & 3/4 BULLS

SRF MISS 940G

5/8 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Bryan and Erika purchased 940G at the ND State Sale in 2020 from SRF Simmentals. She made her debut in our program as the dam of the flush brothers that sold in 2023 resulting in KS Creed (sire of Lots 1 - 7) and KS Declaration (sire of Lot 8). She is an amazingly attractive female – beautiful udder, stylish and feminine, easy fleshing with a wonderful disposition. She has progeny from three flushes and a natural calf in this sale. She really clicks with everything! Her Diligence sons sell as Lots 21 - 22, her Clemson Elite sons sell as Lots 23 - 24, her Dutton son sells as Lot 50 and her natural calf by Republic sells as Lot 60.

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

CLEMSON ELITE 41J

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

TNT Simmentals purchased Clemson Elite from the Clemson Bull Test in 2023. He is a complete outcross to anything we've used in our herd and we were impressed with his thickness, performance and style. He moves well and has great feet! He was the top WDA bull at the Clemson Bull Test and the highest for feed efficiency. He has 6 sons in this sale that you'll see have his same attractive look! Sons sell as Lots 23 - 28.

KBHR GLOBAL J138

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Global was one of the high-selling bulls in the Keller's Broken Heart Sale in 2022. This is the second year we've used him in our program. The calves are eye-appealing with a tremendous profile and nice muscle shape in a moderate frame. The dispositions are super. There are 9 sons and 2 daughters in the sale – Lots 29 - 37 & Lots 128 - 129.

KS JULISSA J346

1/2 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Julissa came to the donor pen after her first calf – a very nice heifer calf. She had a beautiful udder and was a productive mother. Her sons by Global are very impressive. Phenotypically they are deep, thick, they are fluid moving and are very docile. Four sons sell as Lots 29 - 32.

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

ES PURSUIT HD55-2

HETEROZYGOUS BLACK / HOMOZYGOUS POLLED

Pursuit is owned by Bichler Simmentals and was raised by Eichacker Simmentals of SD. This is our second calf crop of his. Since he is heterozygous black, we were able to use him in our red program as an outcross pedigree. There are both red and black sons of him in this sale. We really like the Pursuits. They usually don't blow you away in the pen, but you really can't fault them for anything and they still have great performance, great feet, nice muscle shape and thickness and great dispositions. His sons sell as Lots 40 - 41 in the black section and Lot 107 in the reds and 1 red daughter sells as Lot 176.

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

BLACK PUREBRED & 3/4 BULLS

COLORADO BRIDLE BIT E752

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

We've used Colorado for so many years now and we just can't stop because we absolutely love the females. He does so many great things! He's owned by Traxinger Simmentals, so we use him in our AI program on mainly heifers and high-performance cows. Colorado is a calving ease specialist with adequate growth, amazing dispositions, and beautiful uddered females that are easy keeping and great moms. There are 4 sons and 1 daughter selling in this sale – Lots 42 - 45 & Lot 135.

KENNER SIMMENTAL RANCH

Black Purebred & 3/4 Simmental Bulls (All Homo Polled)

KS DUTTON H542

HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Dutton sold in our sale in 2021 to Ben Stroh of Tappen and this is our second calf crop by him. Several sold in our sale last year! Performance, good muscle expression, structurally sound, and good feet. He has 7 sons and 3 daughters in this sale – Lots 46 - 52 & Lots 132 - 134.

Semen is available on KS Dutton through Kenners and Ben Stroh.

KS ZIVA Z798 HETERO BLACK / HOMO POLLED

Ziva comes from a long line of donor females – with her dam, Wandy, and her granddam, Kayla. One of her daughters has also been a donor for us. Plus, she has many daughters in our herd that bring in some of the best bulls and females each year. The Kayla cow line are just amazing producers. Ziva is a large-framed cow with a beautiful udder and tons of performance.

PUREBRED ANGUS

This is our 4th calf crop of Sitz Stellar. They are just so easy to like! They are impressively stout in a stylish made package, sound and fluid moving, stand on a great foot and have excellent dispositions. They have impressive muscle shape and thickness and definitely stand out in the pen! We used Stellar on our heifers and high-performance cows. The daughters in our herd are beautiful and great mothers! Six Stellar sons sell as Lots 65 - 70 and a daughter sells as Lot 143.

BLACK 1/2 SIMANGUS BULLS

RVR KANSAS 457J

1/2 SIMANGUS / HOMOZYGOUS BLACK / HOMOZYGOUS POLLED

Kansas was our pick of the River Creek Farms sale in 2023 as a heifer bull. He was impressive in person as he had thickness and depth and a ton of attractive style. He was only able to be used one year as he injured his shoulder while breeding and never healed fully. He was used on heifers and high-performance cows. There are nine sons selling in this sale – Lots 74 - 82.

BLACK 1/2 SIMANGUS BULLS

WL ACCOMPLISHMENT 053

PUREBRED ANGUS

The 053 bull was our purchase at the Wendel Angus sale in 2021. He was only used in the pasture, so many of his calves are later born, but they are very well-balanced, are attractive and yet full of muscle. He calved super on heifers and was also used on some high-performance cows. 5 Sons of 053 sell as Lots 83 - 87.

RED PUREBRED & 3/4 BULLS

ROCKIN H CAPTIVATE J75

NON-DILUTED RED / HOMOZYGOUS POLLED

Captivate was the high-selling bull at the Rockin H Sale in Minnesota in 2002 for \$95,000 to Lazy C Diamond and Bichler Simmentals. This is the 2nd year we used him in our ET program. Last year in our sale, 7 sons averaged \$10,000. He carries a very well-balanced EPD profile and has added a lot of length and performance to his calves. The dispositions are excellent. The Captivate sons that sold in the Bichler Simmental Sale this year were also very well-received. Sons sell as lots 88 - 90.

KS ELSIE E820

NON-DILUTED RED / HOMOZYGOUS POLLED

Elsie is a daughter of KS Penny X395 and ShamWow! We have a few of those daughters in our herd and they all rise to the top each year with their calves. Elsie has a good udder, a super disposition, and great feet and structure. She seems to click with every mating we throw at her! She only had one bull born this year out of her flush to Captivate and he is impressive – Lot 88!

Hypnotic is an outcross pedigree for many in the reds combining Captivate and Bulletproof. There isn't any Beef Maker anywhere in the pedigree. We used him heavily this past breeding season so we'll see his first calves in 2025. We are hoping he adds calving ease and still maintains his growth. He looks impressive in person and his EPD profile is extremely balanced. His disposition is excellent and stands on a great foot!

Semen available through Kenners. \$30/straw

- Dam is a daughter of the Elsie donor.
- Maternal sister sells as Lot 161.

KS BAYLOR G119

NON-DILUTED RED / HOMOZYGOUS POLLED

Baylor sold in our 2020 sale to Ben Stroh of Tappen and we used him in our AI program in the past, but we purchased him back in 2022 and used him in our pastures since then. Baylor's dam is KS Alivia A977, who is also the dam of KS Outburst and KS Calibrate (the Full Figures owned by TNT Simmentals). The maternal side of this pedigree is very consistent! Baylor adds performance in a moderate birth weight, has an excellent foot, and often puts the dark, cherry red color in his calves. Two sons sell as Lots 101 - 102 and four daughters sell as 141 & 168 - 170 (red & black).

KS VANDERBILT G220

3/4 SIMANGUS / NON-DILUTED RED / HOMOZYGOUS POLLED

Vanderbilt was the high-selling bull in our 2020 sale going to Crosshair Simmentals and Doll Simmentals. Since then, he has sired high-selling progeny in all of our programs! The Vanderbilts are born with moderate birth weights, but they grow! They are easy to find in the pen and hard not to like. The feet have been great along with the dispositions! Look to the Vanderbilts to add performance, thickness and to correct feet and structure issues. Two Vanderbilt sons and 1 daughter sell as Lots 103 – 104 and 174.

Contact Crosshair Simmentals or Doll Simmental Ranch for semen interest in Vanderbilt.

KS TENNESSEE J2510

NON-DILUTED RED / HOMOZYGOUS POLLED

Tennessee sold in our sale to Bichler Simmentals in 2022. We have shared him between breeding seasons the last couple years. We had a couple sons sell out of him last year and have another two this year. They are all April born, so behind many of the others on birth date, but still measure up! They are dark, cherry red, are deep bodied and thick and nicely made. They've all been structurally sound, and the females look like they will make nice cows! Two sons sell as Lots 105 - 106.

We were fortunate to receive over 30" of rain in 2024 which made for beautiful grass!

Calibrate was the high-selling bull in our 2023 sale to TNT Simmentals, Lehr, ND. His first calf crop at TNT's proved him as a calving ease bull! His dam is a powerful cow who has also produced, KS Outburst and KS Baylor. Her power gives Calibrate a great combination in his pedigree to calve easily and still have adequate growth. See his first calves in the TNT Sale this year on February 13, and look for calves in our program next year!

Semen is available through Genex and TNT Simmentals.

KENNER SIMMENTAL RANCH

PUREBRED RED ANGUS

We have focused our Red Angus program around calving ease and carcass traits, but we are selective on udder quality, disposition and feet as well. We have 8 bulls and 4 bred heifers in the offering this year. The Red Angus are registered with the American Simmental Association and can be registered with the Red Angus Association of America upon request.

STRA ADMIRAL 0150

PUREBRED RED ANGUS

Admiral was our selection of the Twedt Red Angus sale in 2021 for \$27,000. We were so impressed with his feet when we saw him! He had an excellent depth of heel and hoof angle which is getting harder to find it seems. We used him each year on heifers and all the Red Angus cows as clean-up as well as some high-performance Simmental cows to make 1/2 SimAngus. He's in the top 30% for BW, yet also in the top 3% & 15% for growth and adds a tremendous amount of muscle to his calves! Adding in his great foot quality, he is an asset to the Red Angus breed. We sold him to Westphal Red Angus at the end of the breeding season in 2023. They have used him in their AI program and now have him in their pasture as well. Look for more progeny in the future in their program and in the Twedt Red Angus program! We will continue to use him in our AI program.

One son sells in the 1/2 SimAngus section – Lot 115. Six sons sell in the Purebred Red Angus program – Lots 116 - 121. Four daughters sell as lots 178 – 180 & 185.

Bull Buyer's Quick Guide to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing in what units they are expressed. For example, if the above case referred to weaning weight EPDs, sire A would be expected to sire 15 pounds more weaning weight than sire B. If calving ease was the trait, sire A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if sire B sired 30 assists in a group of 100 heifers, we would expect sire A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit www.simmental.org. Listed below are the units in which ASA EPDs are expressed:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See \$ Indexes for more details.)

Back Fat (BF): Inches of carcass backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide pieces of the economic puzzle. This is where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on integrated commercial production. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sires for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you are keeping replacements use API, if not, use TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr.=\$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more detailed information about EPDs and \$ indexes, visit: www.simmental.org

Important disclaimer: DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids — our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Carcass marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of carcass ribeye at 475 days.

Stayability (STAY): Percent of daughters remaining in the cowherd at six years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See TI for more details.)

Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a rib-eye steak.

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

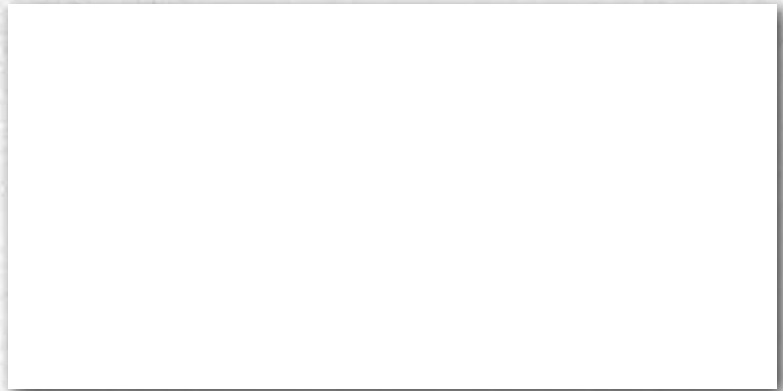

Yield Grade (YG): Carcass yield grade score at 475 days.
